

John Kenneth Santos

Committed to delivering reliable and scalable solutions through clean code, efficient architecture, and effective collaboration. Seeking to contribute technical expertise and creativity to a forward-thinking organization focused on innovation and excellence.

EXPERIENCE

DigiPlus Interactive Corp. – Android Developer Intern

March 2025 - June 2025

- Developed mobile applications using Flutter and Kotlin, focusing on Android platforms
- Implemented BLoC state management for predictable and scalable app behavior
- Applied Flutter Clean Architecture principles for maintainable and modular code structure
- Integrated RESTful APIs to connect front-end interfaces with backend services

Freelance – Web Developer

November 2024 - PRESENT

- Understanding client needs, goals, and project specifications.
- Designing responsive and visually appealing websites.
- Writing clean, maintainable, and scalable code using the latest technologies.
- Integrating APIs and third-party services.

Out of the Box Creatives – Junior Web Developer

July 2024 - September 2024

- Responsible for translating UI/UX design wireframes into actual code
- Collaborating with the Creatives Team to implement design strategies.
- Testing websites to ensure proper functionality.
- Implement responsive design principles to ensure applications function well on various devices and screen sizes.

EDUCATION

Technological Institute of the Philippines – Manila

Bachelor of Science in Information Technology

August 2021 – Graduating (August 2025)

PROJECTS

Ace + Game

Ace+ is a Flutter-based mobile betting game developed during an internship, with a primary focus on implementing BLoC state management and applying the Flutter Feature-First Clean Architecture for scalable and maintainable code structure.

Quatro Pasos Website

A commission-based project to develop a booking system with real-time communication, virtual room tours, and integrated analytics.

SwiftPath

SwiftPath is a Flutter-based application designed to streamline incident reporting through advanced geotagging and geofencing technology.

OOTB Creatives Website

A contract-based project to design, develop, and maintain a custom website for the company.
